(Francois and Nicole did not pay for a new Gate Remote either, Tibor)

When HOA upgraded the gate code as well as the remote, we never purchased a new remote from HOA - they asked residents to get rid of the old remote as it wouldn't work any longer we kept it since we aren't the home owners to be safe, we only used the gate code of 1598 - manually- so the gate remote that you have is very old (doesn't work) as we never obtained a new one from HOA

That would be extremely helpful and kind of you re: the package our new address is :

13182 S. Herriman Rose Blvd., Herriman, UT, 84096

however it is absolutely not expected of you - at all.
